## **Opticon Mobility Group Announces Extended Support for its line of Windows Mobile Smartphones**

**Renton, WA – March 23, 2009** - Opticon Mobility Solutions announced today that they will be offering extended services on its award winning Smartphones sold in the United States beginning April 1, 2009. The program will be called *Opticon Total Care*. While Opticon's standard warranty is an industry leading two (2) years, Total Care will provide for extended years of service in a totally integrated support solution.

Opticon Mobility Solutions US Sales Manager Jay Lauer said that, "Our extended service agreement provides customers with a committed response time and the ability to lock in repair budgets for the length of the agreement." While Opticon's standard warranty covers only defects in materials and workmanship, the new service agreement provides comprehensive support by covering damage occurring in the mobile workplace.

Qualified buyers can purchase the extended services from a Certified Opticon Service Provider.

### **About the H19**

Opticon's award winning H19 Smartphone combines Windows Mobile 6.0, integrated GPS, Quad-band GSM/GPRS/EDGE voice and data, WiFi (802.11 b/g) and Bluetooth into a small, enhanced form factor that is perfect for today's mobile workforce. In addition, the rugged (IP 54) H19 also features a choice of a high speed, integrated laser scanner (100 scans/second) or 2D Imager and 512 MB of ROM for high-volume data storage. Designed to simplify field service, field sales and route delivery applications – the H19 converges multiple, high performance tools into a single device.
