## **Opticon Mobility Group Announces AT&T Certification and Launches New Mobility Website**

**Renton, WA – August 4, 2008** – The Opticon Mobility Group announced today that their H16 Smartphone was certified by AT&T and they are currently seeking certification of their H19 Smartphone, for a September release. The Smartphones are compatible with AT&T and GSM/GPRS networks. Don Davis, the Director of Opticon Mobility Group said, “We are extremely pleased to gain certification with AT&T so we can begin to co-sell our mutually certified solutions. AT&T is central to our US mobility strategy and we plan to co-market the Windows Mobile solutions that are most popular with our mutual enterprise customers.” Certified AT&T and Opticon solution partners include Telenav, Corrigo, Salesforce.com, and Sybase iAnywhere.

The Opticon Mobility Group also announced a new e-commerce mobility website designed to enable Enterprise users of any size to order the Opticon Smartphones online at [www.OpticonMobility.com](http://www.OpticonMobility.com). The site offers extra accessories, and AT&T certified solutions that work harmoniously with Opticon Smartphones.

Opticon Smartphones offer superior scanning abilities with a competitive price point, making them stand out over any other product. The H19 was recently recognized by AT&T as the Best New Network Compatible Device at the CTIA Wireless Tradeshow. The H19 is a GPS device, enabling location-based solutions for field service, route navigation and dispatch.

### **About the H19**

The award winning H19 features Windows Mobile 6.0, quad-band cellular (GSM/eGPRS), WiFi and Bluetooth communication, an integrated GPS module and numeric keypad. With your choice of laser barcode scanner, or 2D CMOS Imager, the H19 is the perfect productivity tool for any field workforce.

### **About the H16**

The H16 features Windows Mobile 5.0, quad-band cellular (GSM/eGPRS), WiFi and Bluetooth communication, as well as a full slide out QWERTY keyboard. With your choice of laser barcode scanner, or 2D CMOS Imager, the H16 is the perfect productivity tool for text intensive field applications.
